

Adults' Services

Join us and make a difference in our communities

West Sussex County Council is a diverse organisation that provides services to more than 850,000 residents every day. As one of the main employers in the County, we have a number of responsibilities as a local authority and work with partner organisations to deliver our services to improve the lives of West Sussex residents.

About this area

Employees in this area provide a large variety of services to support vulnerable adults. This includes work in residential homes and day centres. We work with adults with learning disabilities, physical disabilities and mental health conditions; providing therapies and support and working towards enabling everyone to live independently. We ensure our services work to a high standard and within budget. As part of our [West Sussex Plan](#), this ultimately will give our residents greater independence for later life.
