

Public Protection and Fire & Rescue

Join us and make a difference in our communities

West Sussex County Council is a diverse organisation that provides services to more than 850,000 residents every day. As one of the main employers in the County, we have a number of responsibilities as a local authority and work with partner organisations to deliver our services to improve the lives of West Sussex residents.

About this area

Employees in this area protect the residents of West Sussex from harm. Our Fire and Rescue Service are not only here to protect people and property from fire, but we also work with businesses to support fire safety, hosting educational events such as "Safe Drive, Stay Alive" and give safety advice to older people in their homes. We also have teams that help with animal rescues, searches during natural disasters, and protecting consumers from fraudulent services. Our overall aim is to improve resilience within the county.
