WEST SUSSEX COUNTY COUNCIL
ROAD TRAFFIC REGULATION ACT 1984 – SECTION 23
CHICHESTER – FLORENCE ROAD
PEDESTRIAN CROSSING PLACES

STATEMENT OF REASONS FOR PROPOSING TO INSTALL THE CROSSINGS

The County Council in exercise of their powers under the Road Traffic Regulation Act 1984, propose to install two pedestrian crossing places on Florence Road, Chichester. One crossing to be located 35metres south of the Windsor Road junction and the other to be located 57 metres south of the Oving Road junction and 57 metres north of the Pound Farm Road junction.

Following a serious road traffic accident on Florence Road the South Chichester County Local Committee prioritised a scheme to introduce 2 pedestrian crossing places on Florence Road one at the northern end and one at the southern end. In determining the best location for the crossing places officers have considered the existing pedestrian traffic, the increase in pedestrian traffic as a result of planned local development, the loss of on-street parking provision and how the project supports the aims of the recently adopted Walking and Cycling Strategy. The proposed crossing locations have been subject to a Road Safety Audit.

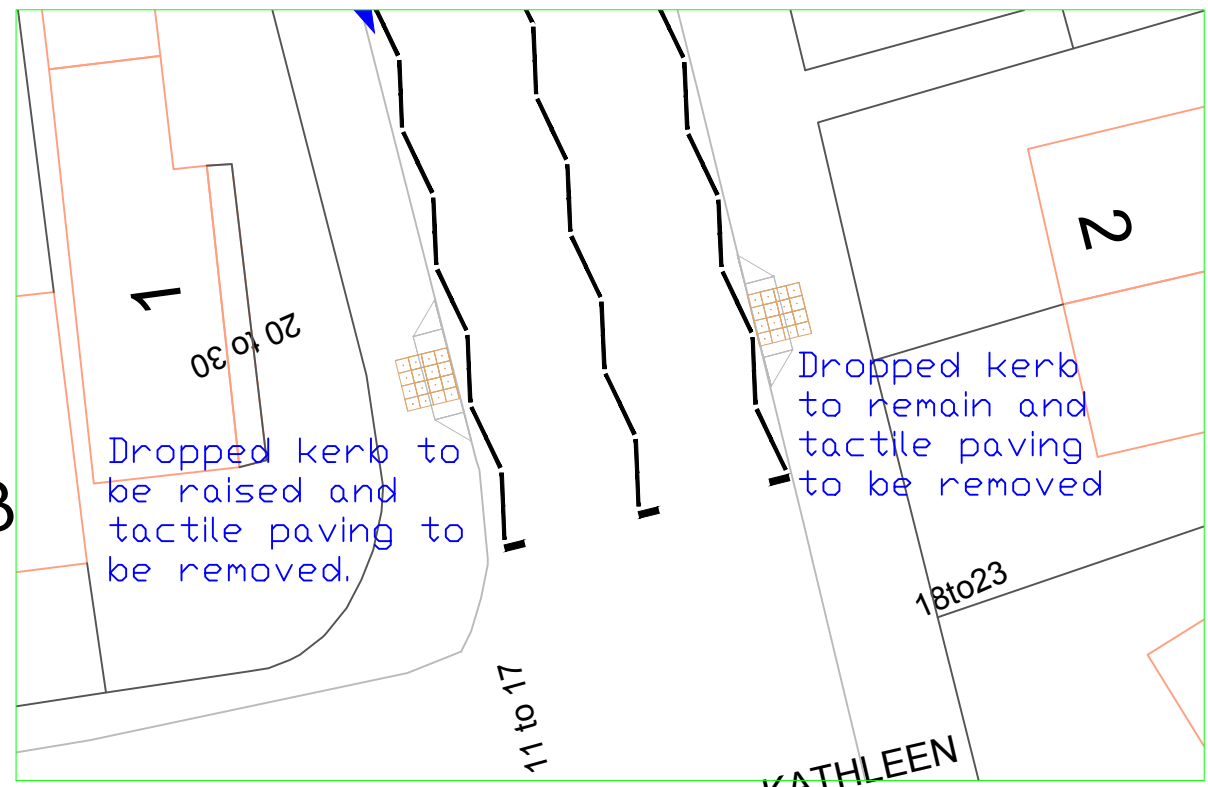

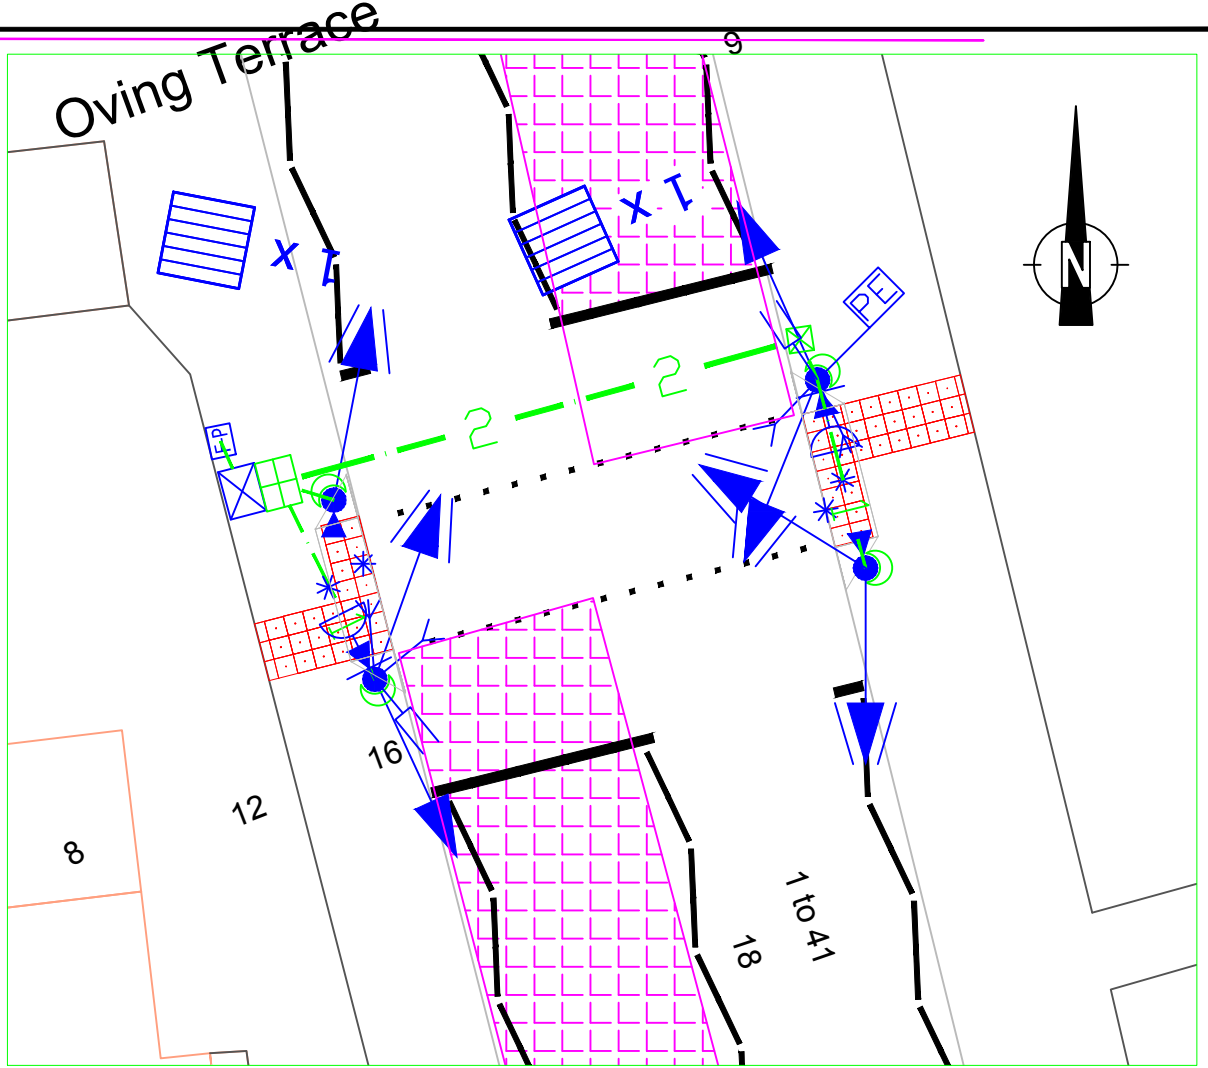

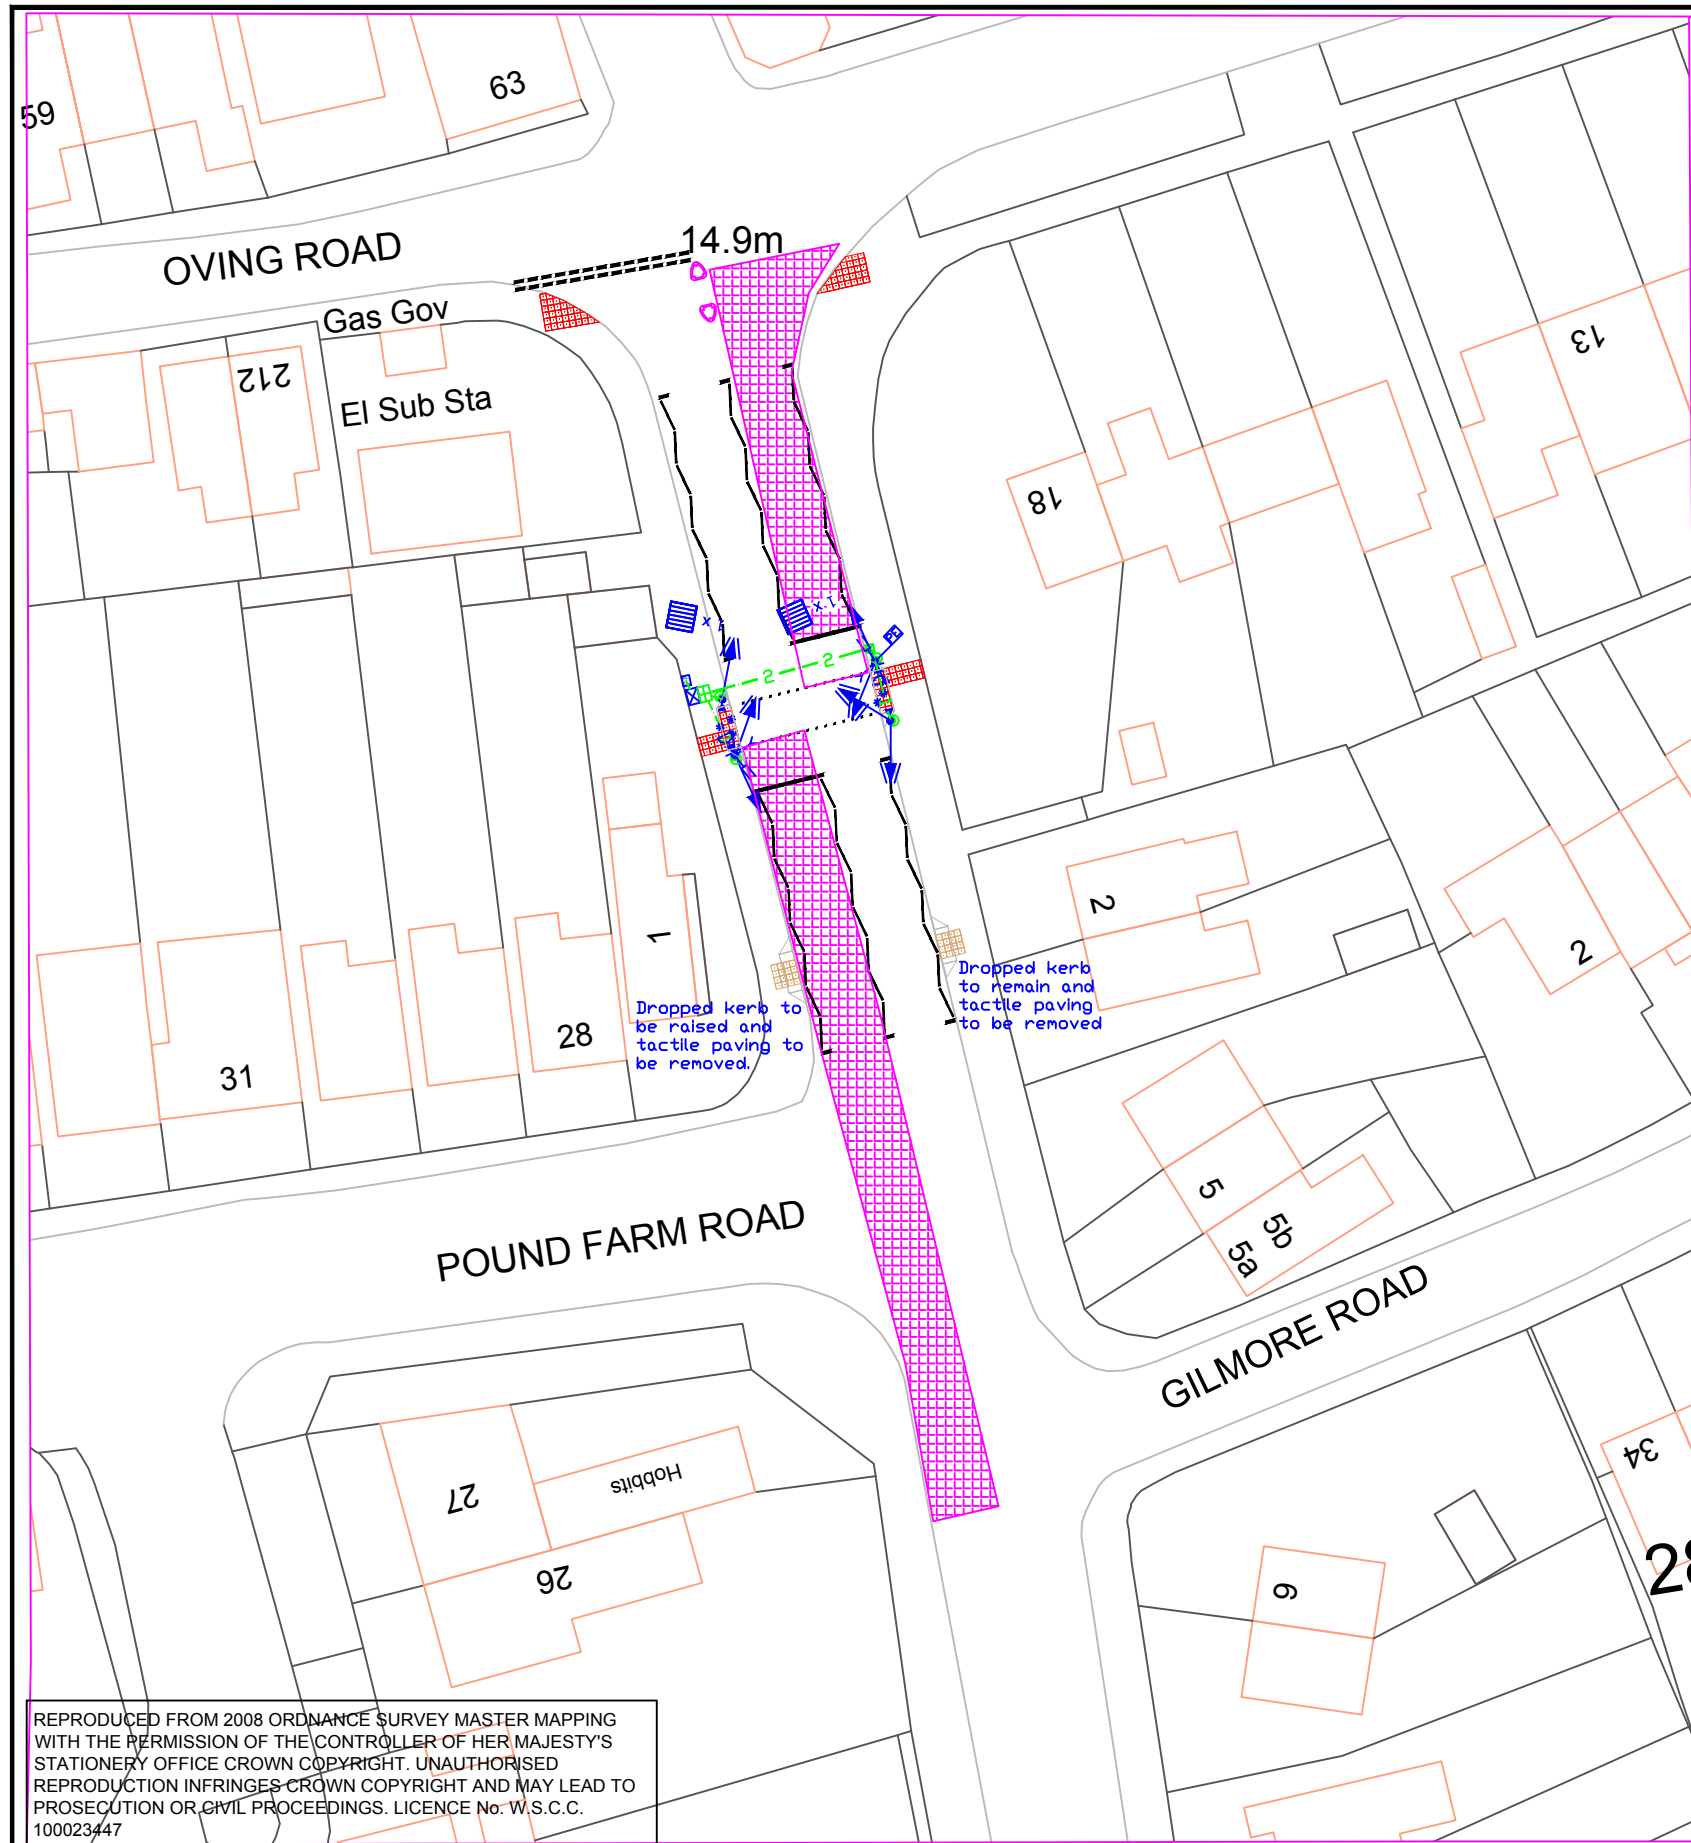

The southern controlled crossing place, south of Windsor Road, is to be located at the dropped kerb point where the pavement towards Bognor Road runs between Careline carpark and the allotments. This will be used by pedestrians from Windsor Road and from the western end of Chatsworth Road and the Bartholomews site.

The northern controlled crossing place is to be located equidistant between the Oving Road and Pound Farm Road junctions, just north of the existing tactile dropped kerb crossing point between Nos. 1 and 2 Florence Road. This will be close enough to Oving Road to be used by pedestrians from Charles Avenue and Elizabeth Road wishing to access Florence Park or to provide an onward route to the Whyke Road/Bognor Road controlled crossing.

Drawing Nos. 14356 Florence Road nr Windsor Road and 14355 Florence Road nr Pound Farm Road

show the lengths of road where the crossings will be located.
