# PUBLIC NOTICE

**WEST SUSSEX COUNTY COUNCIL**  
**ROAD TRAFFIC REGULATION ACT 1984 - SECTION 23**

**BURGESS HILL: KEYMER ROAD**  
**PEDESTRIAN CROSSING PLACE**

NOTICE is hereby given that West Sussex County Council proposes to install a signal-controlled pedestrian crossing on Keymer Road in Burgess Hill, approximately 40 metres south of its junction with Silverdale Road.

Documents containing more information about the proposed crossing can be viewed on our website at [www.westsussex.gov.uk/tro](http://www.westsussex.gov.uk/tro) from 19 March 2020. The website includes a response form for any comments or objections.

The above documents may also be inspected at Burgess Hill Library, 15-19 The Martletts, Burgess Hill from the above date during normal library opening hours, and at County Hall, Chichester, during normal office hours.

Library staff will NOT be in a position to answer questions on the proposal and any enquiries should be addressed to the undersigned.

Any objections or comments about the proposal must be received by 2 April 2020. These may be sent in writing to: TRO Team, West Sussex County Council, The Grange, Tower Street, Chichester, PO19 1RH, by email to: [tro.team@westsussex.gov.uk](mailto:tro.team@westsussex.gov.uk) or via the response form on the website.

Dated this 19th day of March 2020.

**WEST SUSSEX COUNTY COUNCIL**

**Burgess Hill: Keymer Road – Proposed Puffin Crossing**

**BACKGROUND NOTE**

West Sussex County Council proposes to install a new puffin crossing on Keymer Road, approximately 40 metres south of its junction with Silverdale Road.

The need for a pedestrian crossing at this location was identified as part of work conducted by Burgess Hill Girls' School when developing their travel plan and has been included in the Local Transport Improvement Programme for delivery in the 2020-21 financial year.

The installation of a new crossing at this location is intended to provide a safe crossing point on Keymer Road for local residents and in particular children walking to and from the school.

The crossing will be 3.2 metres wide and will incorporate dropped kerbs and tactile paving. The design features 4 poles for signal heads and push buttons with bleeper units to indicate when it is safe to cross.

A Kerbside detection system would prevent vehicles being stopped if the pedestrian crosses or moves away before the crossing has activated. The crossing would also feature tactile cones to indicate the crossing's activation to pedestrians with visual impairment.

The attached drawing, numbered 14359/001 shows the proposed layout and location of the new crossing.

Director of Law & Assurance  
20 February 2020  
CMS8023-MM

- 4m Grey Low Access Signal Pole.
- ELV 3-inches, Primary RAG Head
- Above ground Kerbside Detector.
- Above ground, Overcrossing Detector.
- Puffin Combi Unit with audible device and rotating tactile cone.
- Small watt pushbutton unit with rotating tactile cone.
- RS115 pole socket, NDL or similar.
- Traffic signal pole number.
- Above ground M.O.
- Feeder pillar.
- ELV Controller with RAG.
- New underground ducting, number as per specified.
- New 50mm single Orange duct from Feeder Pillar to Controller
