

Decorative Christmas Chains

A really fun activity for children and the results are amazing!

You will need:

A family sized foil crisp bag, or several small crisp packets, with silver insides.

A pair of small scissors (ask an adult for support)

Some sticky tape

Instructions:

Cut the crisp packet(s) open along the bottom and on one side.

Wash the square of foil in some warm soapy water to remove grease and salt residue. Wipe dry.

Cut the foil into strips of approximately 2x15 cm.

Bend the first strip into a loop with the silver side on the outside. Stick the ends together with a small piece of sticky tape.

Loop the next strip through the first loop and fix the ends. Continue until you run out of strips.

Use the sparkling chain to decorate a tree, hang over pictures or make a longer chain to hang from the ceiling.
