

UPDATE: 26 November 2021**Progress**

The cool but glorious winter sunshine has allowed us to continue the excellent progress for the remaining work and the programme continues on schedule.

Significant activity on site this week included:

- Drainage works
- Dam and clearing, repairs to culvert
- Laying and compaction of road sub-base
- Installation of kerbing and concrete backing completed
- Erection of timber fencing between the pond and the road completed

Due to operational constraints the contractor will not be working this weekend.

We hope to have some safety and remedial works carried out along Crouch Lane during next week. We, however, continue to monitor the impact of the closure on surrounding lanes and byways and are in discussion with a number of those impacted.

Businesses in Duncton have been able to open throughout and will continue to do so and have been well supported by the local community.
