### Indicative Rates Schedule 2024-25

- Residential and nursing provision for lifelong services does not operate in the same way as older peoples' services and is largely based on the individual customer need. All agreed rates for residential and nursing placements for customers with a learning disability, and physical disabilities not related to age are to be increased by 8%. This applies to all placements made up to and including the 31<sup>st</sup> March 2024 and all placements in and out of county.
- NHS Sussex ICB as the lead commissioner for working age mental health services is working through proposals for uplifts in the context of a challenging financial position and is not able to confirm the position prior to national planning guidance. As a result, WSCC is not able to proceed with a decision in this area of the business at this time and a decision about this will be deferred until the NHS Sussex finalises its position. We appreciate the impact on providers and apologise for challenges that may cause. WSCC will work with NHS Sussex to ensure an uplift decision can be taken at the earliest opportunity.
- For older people where needs exceed those in the band usual maximum rates, fees are agreed on an individual basis. Agreed rates in these cases will be increased by 4%. Placements at individually agreed rates made on or before 1<sup>st</sup> January 2024 will not receive an uplift. Enhanced rates are paid for homes within the Adults' Services Northern area and Northern Chichester, i.e. those homes in Midhurst, Pulborough, Petworth, Billingshurst, Easebourne and West Lavington
